RFP CHANGE #1

RE: Request for Proposals – **Aviation Facilities Fencing Services**

The Request for Proposals (RFP) for the above-mentioned services has been modified to clarify the RFP by addressing the following questions:

1. Section 2.11.1 states that hourly rates shall be inclusive of all fees, including mileage and travel time...Our question is can we have an hourly mobilization rate, and/or separate rates for when we need to include travel and for when we don't need to include travel? Otherwise if only one rate is allowed, it would be artificially high for some areas in an effort to cover the areas that are further away.

A. Use basic hourly rates for your home area on the rate sheet. Further travel and mobilization can be included as you bid for individual Work Assignments under the retainer.

2. Section 4.2.2 says to list all current or past State projects...Our question is are you looking for projects we were prime on or just in general projects we were part of?

A. General projects, you did not have to be the prime contractor.

3. Do we include rates for our equipment on the price schedule?

A. No, equipment rates will be included during the bid for individual work assignments.

All other requirements and specifications as stated in the Request for Proposals shall remain unchanged.

Sincerely,

Bonnie Sanders
