2018 Vermont Public Transit Policy Plan

January 17, 2018

THE VERMONT PUBLIC TRANSIT POLICY PLAN WILL QUANTIFY VERMONT'S TRANSIT NEEDS, AS WELL AS RECOMMEND PROGRAMMATIC AND POLICY INITIATIVES TO STRENGTHEN THE STATEWIDE TRANSIT SYSTEM.

The Vermont

Agency of Transportation (VTrans) is requesting the services of a qualified planning firm to develop a statewide Public Transit Policy Plan (PTPP). The PTPP will provide policy level direction, guidance, and performance tracking to inform and guide future transit investments.

Project Summary

Introduction

The development of PTPP every five years is required by Statute (http://legislature.vermont.gov/statutes/section/24/126/05089 Title 24, VSA, §5089). The first PTPP was published in 2000 and the most recent version was published in 2012. This Plan will be an update to the 2012 PTPP and will serve as a guide for the Vermont Agency of Transportation (VTrans) and its partners in making decisions on implementing and funding transit projects that facilitate mobility for Vermonters, minimize duplication of services, leverage limited funds, maximize ridership, and improve coordination of services. The PTPP part of a series of modal policy plans, which together, provide direction for various VTrans' programs and provide the foundation of the Vermont Long Range Transportation Plan. In addition, the PTPP will meet the objective of the 2014 Human Service Transportation Coordination Plan, including developing an annual workplan for the Elderly and Disabled (E&D) Transportation Program.

Purpose

Public transit needs transcend jurisdictional boundaries and transportation system ownership. This plan, while focused on a State perspective, recognizes the need for an integrated public transportation system. Public transportation, related to this plan, refers to passenger service transportation "by all means available to the general public" while public transit service is a subset of that which means "...any fixed route, paratransit, transportation brokerage, user-side subsidy, and or rideshare/ride-match program which is available to any person upon payment of the proper fare, and which is promoted to be available to all members of the public, including those with special needs." (24 V.S.A. §5088 (5))

While this PTPP is primarily focused on Public Transit services and coordination with the 2014 Human Service Transportation Coordination Plan, the update shall be developed in conformance with the 2018 Long Range Transportation Plan. Equally important, the plan is concerned with the statutory requirement of conformance with Chapter 117 (municipal and regional planning and development). Regional plans, together with the PTPP, shall

function to coordinate the provision of public, private nonprofit, and private for-profit regional public transit services, in order to ensure effective local, regional, and statewide delivery of services. (24 V.S.A. §5089)

Use

The plan is intended to serve as a guide for accommodating public transportation in the development of State and local transportation systems. While the PTPP is updated every five years, it serves as the primary guidance for continued development of public transit in the State over the next ten years. The plan is to be consistent with Federal and State laws and regulations. The plan will: provide a summary of state and federal regulations, policy framework, and planning requirements unique to transit; provide a current profile of the system; identify current needs; establish recommendations; create a performance framework that will guide future investment decisions and Agency practices; and develop and implementation plan, inclusive of an Elderly and Disabled Program Workplan, that will identify both short and long term strategies and action items to fulfill proposed recommendations.

Scope of Work

Background

Vermont's existing public transit services attempt to balance and satisfy a variety of needs at the state, regional, and local level; ranging from basic mobility needs of the general and special-needs public to providing access to

THE VISION FOR PUBLIC TRANSIT IN VERMONT:

PUBLIC TRANSIT MEETS THE BASIC MOBILITY NEEDS OF ALL VERMONTERS
INCLUDING TRANSIT-DEPENDENT PERSONS, PROVIDES ACCESS TO EMPLOYMENT
AND OTHER MODES, MITIGATES CONGESTION, PRESERVES AIR QUALITY AND
PROMOTES EFFICIENT ENERGY USE, AND ADVANCES THE STATE'S ECONOMIC
DEVELOPMENT OBJECTIVES, ALL IN A SAFE, RELIABLE, COST-EFFECTIVE, AND
ENVIRONMENTALLY RESPONSIBLE MANNER.

employment centers and intercity travel options. Enhanced intermodal connections and coordination with intercity bus service, ride sharing programs, passenger rail, and commercial aviation are all considered crucial elements of a successful, integrated public transportation system.

Vermont is a predominately-rural state with a few urbanized centers. This rural nature and low population densities provide a major challenge to public transit delivery. Many of the rural transit providers in Vermont have evolved from local human service providers or a local urban area need. Vermont's current public transit system consists of eight distinct public transit entities. Service in each of the provider areas includes the spectrum of transit options from fixed-route style transit, demand response transit by bus, van and volunteers, to intercity connectivity by commercial intercity carriers. Demand response services are coordinated with many human service programs, including: Medicaid, other AHS programs which transport children and those training for employment, Agencies on Aging and other programs serving the elderly, programs serving those with disabilities, and commuter programs. In addition, VTrans has established and delivers supplemental demand response programs such as the Elderly and Disabled Persons Transportation Program, and ADA Paratransit service.

Public transportation and public transit policy for Vermont is contained in Title 24 V.S.A. Chapter 126 and 19 V.S.A. § 10f. The intent of this planning effort is outlined in 24 V.S.A. § 5089(a) http://legislature.vermont.gov/statutes/section/24/126/05089.

Major Tasks

A. Existing Conditions Assessment

The consultant will compile a summary of existing conditions that will describe and quantify how transit services are developed, managed, delivered and funded in Vermont. The consultant will utilize existing plans, statistics regarding transit agency performance and productivity, as well as input collected from transit agency leadership, members of the public, and other transit system stakeholders. This assessment shall include a graphically rich summary of relevant historical trends (i.e. ridership, funding, etc.). The assessment will establish a baseline from which to evaluate future conditions and develop recommendations and will include the following sub-tasks:

- <u>Identify Best Practices:</u> Conduct an assessment of Statewide Public Transit Plans from up to four other states and summarize key information and findings. Identified states should be innovative in practice and similar in terms of demographics and development patterns to Vermont. This review shall examine the way such programs are structured and organized as well as how they raise and distribute revenues. The purpose is to demonstrate how successful processes have been executed in other states and regions, which strategies and approaches have helped sustain momentum and innovation, and areas or key issues where states have faced challenges.
- <u>Review Background Information:</u> Compile and summarize review of relevant regulatory and planning documents and programs related to Public Transit and modal planning, including the following:
 - Relevant Federal and State Planning Regulations
 - VTrans Project Selection and Prioritization Processes (VPSP2)
 - Current modal plans
 - o Previous Public Transit Policy Plan (2012)
 - VTrans Long Range Transportation Plan- draft (2018)
 - VTrans Strategic Plan (ongoing)
 - Vermont Human Service Transportation Coordination Plan (2014)
 - Vermont Public Transit Route Performance Reviews
 - Vermont Statewide Intercity Bus Study (2013)
 - Various Transit Operator Plans (i.e. Transit Development Plans, Short-Range Transit Plans, and/or Strategic Plans as applicable)

0

- <u>Transit Network Overview</u>: Provide a system overview of the current public transit network including the transit operators, the services they provide and an inventory of their infrastructure, operational conditions, ridership, current management systems, connectivity with other modes, a summary of capital and maintenance/operating costs, revenue levels, and funding sources.
- <u>Transit Program Overview:</u> Provide an overview of the VTrans Public Transit Section and the legal framework under which it operates, inclusive of federal programs that fund and guide transit in Vermont and state statutes that direct the program.

- <u>Transit Partners Overview:</u> Describe the role of the various public transit operators' partners including VTrans, the Agency of Human Services, the public transit service providers and private providers, advocacy and advisory organizations, and those entities providing funding for the operation and investment in the system.
- Other: Other relevant components to examine include, but are not limited to, transit market and trends affecting demand such as economic trends (i.e. key industries and employment sectors), population growth/decline, other demographic trends such as relevant health statistics, land use patterns, income and housing, trends in technology, cost of mobility, disruptive transit resources, etc.

B. Needs Assessment

Understanding public transit needs in such a rural state is an important part of planning for the future of public transit in Vermont. Based on an understanding of existing conditions and future trends through data collection and input from the PTPP Internal Working Group (IWG), Project Advisory Committee (PAC), and stakeholders, the consultant will complete a statewide public transit needs assessment.

The needs assessment shall capture the transit service gaps and needs as well as funding and financial outlook- inclusive of revenue projections. The analysis is not intended to propose or define a particular level of transit service, but rather to illuminate the gap between needs and the anticipated resources available to providers around the state. The consultant will identify an order of magnitude investment requirements and potential resource gaps both financial and technical, which will inform implementation strategies - specific actions taken to enact policies in the plan.

THE NEEDS ASSESSMENT IS BASED ON THE BEST INFORMATION AVAILABLE TODAY.
HOWEVER, THE TRANSIT INDUSTRY IS CONSTANTLY EVOLVING, AND THE PTPP MUST BE
FLEXIBLE ENOUGH TO ACCOMMODATE A VARIETY OF OUTCOMES. THIS ASSESSMENT DOES
NOT REPRESENT A FUTURE INVESTMENT VISION FOR PUBLIC TRANSIT ITSELF, BUT WILL
INFORM THE DEVELOPMENT OF INVESTMENT SCENARIOS AS PART OF THE PLAN.

This analysis will compare expected future funding needs with distribution formulas, success at the local level in raising revenue, and partnership potential to gauge the amount of resources the statewide network need. Understanding future needs will enable VTrans to develop a forward set of actions and investments by agencies and leaders throughout the state that will support the growth and development of public transit. This will also take into account some of the reductions in trips taken in recent years.

The assessment will include the following sub-tasks:

- <u>Develop methodology</u>: Develop a methodology for assessing public transit needs on a statewide, regional and local basis- for both capital and operational costs. Present the methodology to the Project Managers for review and approval.
- <u>Complete Transit System Needs Assessment:</u> Apply methodology to produce a high-level assessment
 of both the annual capital and operations dollars needed by public transit providers statewide under
 three different future service scenarios based on the existing public transit services and projected
 future demand.

Complete Financial Needs Analysis: Develop a financial analysis that will provide an overview of the
amount, timing, and type/source of funding in Vermont by mode as well as how it is distributed. This
analysis will compare expected future funding needs with distribution formulas, success at the local
level in raising revenue, and partnership potential to gauge the amount of resources the statewide
network need.

C. Additional Needs and Opportunities

In addition to those service and capital investment needs identified in the needs assessment, the Consultant shall also facilitate the identification of needs and opportunities that have the potential to strengthen and improve transit service and programs in Vermont. These opportunities shall be identified through a variety of resources, including input from key VTrans staff, interviews and meeting with key stakeholders, as well as through the analysis of individual transit agency operations and research on transit funding. Proposed initiatives shall be vetted and refined through the IWG. At a minimum, each initiative shall identify why it is a major area of concern and/or why it offers an opportunity to improve the delivery of transit services in Vermont and recommendations on how the needs might be addressed.

THE AGENCY SHALL MAINTAIN A WORKING LIST FOR BOTH SHORT- AND LONG-TERM PLANNING NEEDS, GOALS, AND OBJECTIVES THAT BALANCE THE NEEDS FOR REGIONAL SERVICE WITH THE NEEDS FOR LOCAL SERVICE.

D. Recommendations and Implementation

The purpose of the PTPP is to define the goals, policies, and implementation metrics for public transit in Vermont. Being able to measure and communicate the value and benefits derived from the investment in public transit is essential to being able to attract and sustain funds and partnerships. Based on the assessment of existing system and review of major issues, the Consultant will complete the following subtasks:

- <u>Policies:</u> Develop proposed policy revisions to guide VTrans and its partners to the desired future scenario. These policies will be reviewed and approved by the IWG and PAC.
- <u>Performance Measurement System:</u> Develop a *Performance Framework* for making future *Investment Decisions* concerning the system:
 - Define Desired Outcome Categories & Performance Goals.
 - o Develop Performance Measures and standards.
 - Develop Performance Targets (given available Resources).
 - Depict Future System Performance given different levels of Investments (What if Scenarios....).
- Goals, Objectives, and Actions: Propose revised goals, objectives and actions.

- <u>Implementation Plan:</u> Develop an implementation plan to fulfill the policies, goals, and objectives. This plan will be utilized by Transit Program staff and the Public Transit Advisory Council as an annual work plan and long-term guidance document. As such, it should include action items related to relevant transit programs such as the incorporating the Elderly and Disabled Persons Transportation Program. This plan should, at a minimum:
 - o Propose specific actions that need to be implemented.
 - For each proposed action, identify responsible parties (agency staff and sections) that need to be involved.
 - o Propose a timeframe for the implementation of these actions.
 - Identify issues and topics that should be addressed within the near (1-2 years) and long term (3, 5, and 10 years).
 - Develop recommendations to monitor the performance of the system.

Plan Preparation Process

The project will be managed by VTrans staff comprised of a VTrans Planning Coordinator and the VTrans Public Transit Program Manager. The project managers shall be responsible for all administrative aspects of the project, ensure the delivery of the project outputs and the attainment of project outcomes, and shall make available or assist in providing the consultant Agency documents and other information for the preparation of the PTPP. The consultant should anticipate regular project status/management meetings with project managers, by telephone or in person to monitor the progress of the project and identify and resolve problems and issues as they arise.

An IWG comprised of additional representatives from VTrans, the Department of Labor (DOL), Agency of Human Services (AHS), the Agency of Commerce and Community Development (ACCD), and other key stakeholders shall serve as the project's steering committee to provide review, input, and feedback on the contents of the plan as it is developed. The consultant should anticipate at least four (4) meetings with the IWG.

VTrans is committed to public involvement in all its planning activities and will utilize the Transportation Planning Initiative (TPI) to support that work (see 24 V.S.A. § 5089 and the TPI Guidance Manual) as well as other methods. The consultant shall follow the process outlined in the VTrans Modal Planning Public Outreach Process guidance document. Based on this guidance document, the consultant shall anticipate making at least two (2) presentations to the Public Transit Advisory Committee (PTAC) and to the Regional Planning Commissions (RPCs) during regularly scheduled PTAC and TPI meetings (these can be combined) and two (2) presentations to the VTrans Executive Staff, to keep these groups informed of the status of the plan and to solicit their input.

The consultant shall confer with and conduct individual meeting or focus group sessions as necessary with individual transit operators, agency personnel, other state and federal agencies, and appropriate national, statewide, and regional organizations such as the RPCs/MPO, as necessary during the development of the plan.

A robust public engagement plan with activities that educate and involve the public and key stakeholders in public transit planning is critical for the PTPP. The IWG shall determine key organizations that the Consultant shall coordinate public meetings with for the purpose of engagement. In addition, the Consultant shall facilitate innovative outreach activities (i.e.wiki map, interactive budget simulators, interactive polling, intercept surveys, etc.) for focused input.

"Agreement" shall mean the specific contract or grant to which this form is attached.
- **2. Entire Agreement:** This Agreement, whether in the form of a contract, State-funded grant, or Federally-funded grant, represents the entire agreement between the parties on the subject matter. All prior agreements, representations, statements, negotiations, and understandings shall have no effect.
- **3. Governing Law, Jurisdiction and Venue; No Waiver of Jury Trial:** This Agreement will be governed by the laws of the State of Vermont. Any action or proceeding brought by either the State or the Party in connection with this Agreement shall be brought and enforced in the Superior Court of the State of Vermont, Civil Division, Washington Unit. The Party irrevocably submits to the jurisdiction of this court for any action or proceeding regarding this Agreement. The Party agrees that it must first exhaust any applicable administrative remedies with respect to any cause of action that it may have against the State with regard to its performance under this Agreement. Party agrees that the State shall not be required to submit to binding arbitration or waive its right to a jury trial.
- **4. Sovereign Immunity:** The State reserves all immunities, defenses, rights or actions arising out of the State's sovereign status or under the Eleventh Amendment to the United States Constitution. No waiver of the State's immunities, defenses, rights or actions shall be implied or otherwise deemed to exist by reason of the State's entry into this Agreement.
- **5.** No Employee Benefits For Party: The Party understands that the State will not provide any individual retirement benefits, group life insurance, group health and dental insurance, vacation or sick leave, workers compensation or other benefits or services available to State employees, nor will the State withhold any state or Federal taxes except as required under applicable tax laws, which shall be determined in advance of execution of the Agreement. The Party understands that all tax returns required by the Internal Revenue Code and the State of Vermont, including but not limited to income, withholding, sales and use, and rooms and meals, must be filed by the Party, and information as to Agreement income will be provided by the State of Vermont to the Internal Revenue Service and the Vermont Department of Taxes.

The State shall notify the Party in the event of any such claim or suit, and the Party shall immediately retain counsel and otherwise provide a complete defense against the entire claim or suit. The State retains the right to participate at its own expense in the defense of any claim. The State shall have the right to approve all proposed settlements of such claims or suits.

After a final judgment or settlement, the Party may request recoupment of specific defense costs and may file suit in Washington Superior Court requesting recoupment. The Party shall be entitled to recoup costs only upon a showing that such costs were entirely unrelated to the defense of any claim arising from an act or omission of the Party in connection with the performance of this Agreement.

The Party shall indemnify the State and its officers and employees if the State, its officers or employees become legally obligated to pay any damages or losses arising from any act or omission of the Party or an agent of the Party in connection with the performance of this Agreement.

Notwithstanding any contrary language anywhere, in no event shall the terms of this Agreement or any document furnished by the Party in connection with its performance under this Agreement obligate the State to (1) defend or indemnify the Party or any third party, or (2) otherwise be liable for the expenses or reimbursement, including attorneys' fees, collection costs or other costs of the Party or any third party.

The records described shall be made available at reasonable times during the period of the Agreement and for three years thereafter or for any period required by law for inspection by any authorized representatives of the State or Federal Government. Except as specifically provided below, a prime contractor must act in an independent capacity and defend and indemnify the State in accordance with the State's then-current Attachment C

b. Subcontractors:

Except as specifically provided below, the prime contractor must include requirements as to independence, defense, and indemnity, matching Attachment C and identical to those in the prime contractor's contract with State, in the prime contractor's contracts with subcontractors. Subcontractors must do the same for their sub-subcontractors.

2. For Design/Engineering Professional Services for a Specific Construction Project:

a. Prime Contractor:

Where a contract is for design/engineering professional services for a specific construction project, or, when a contract contains a mixed scope of work that in part consists of tasks of such professional design services for a specific construction project or projects, then as to, and only as to, those specific professional design services, the provisions of Standard Attachment C on the subjects of "Defense and Indemnity" (numbered item 7 in the December 2017 version of Attachment C, and any equivalent provisions, however numbered, in any subsequently-issued Attachment C) are stricken in their entirety and replaced in full by the following:

The Party shall defend the State and its officers and employees against all claims or suits arising in whole or in part from any act or omission of the Party or of any agent of the Party in providing "non-professional services" under this Agreement. As used herein, "non-professional services" means services provided under this Agreement other than professional services relating to the design and/or engineering of all or part of the project. The State shall notify the Party in the event of any such claim or suit covered by this Subsection, and the Party shall immediately retain counsel and otherwise provide a complete defense against the entire claim or suit arising out of "non-professional services" provided under this Agreement.

Notwithstanding anything to the contrary set forth in Subsection C above, the Party shall not be obligated to defend the State and its officers and employees against claims or suits arising from the Party's provision of engineering design services or architectural design services. However, the Party's obligation to defend the State and its officers and employees against all claims or suits arising out of "non-professional services" provided under this Agreement as provided in Subsection C above and the Party's other obligations under Attachment C shall remain in effect.

The Party agrees to indemnify and hold the State, its officers and employees, harmless from and against monetary damages to third parties, together with reasonable costs, expenses and attorney's fees incurred and paid by the State in defending claims by third parties (collectively "Damages") but only in the event and to the extent such Damages are incurred and paid by the State as the proximate cause of negligent acts, errors or omissions ("Professional Negligence") by the Party, its employees, agents, consultants and subcontractors, in providing the professional services required under this Agreement.

As used herein, "Professional Negligence" or "negligent acts, errors or omissions" means a failure by the Party to exercise that degree of skill and care ordinarily possessed by a reasonably prudent design professional practicing in the same or similar locality providing such services under like or similar conditions and circumstances.

The Party shall indemnify the State and its officers and employees in the event that the State, its officers or employees become legally obligated to pay any damages or losses arising from any act or omission of the Party arising from the provision of "non-professional services" (as defined herein) under this Agreement.

The Party shall not be obligated to indemnify the State for any Damages incurred by the State attributable to the State's own negligent acts, errors or omissions or the negligent acts, errors or omissions of its officers, agents or employees, or the acts, errors, omissions or breach of Agreement by persons or entities other than the Party, its employees, agents, consultants and subcontractors.

After a final judgment or settlement, the Party may request recoupment of specific defense costs and may file suit in Washington Superior Court requesting recoupment. The Party shall be entitled to recoup costs only upon a showing that such costs were entirely unrelated to the defense of any claim arising from an act or omission of the Party.

b. Subcontractors:

As to subcontractors working under a prime contractor and where the subcontractors are providing such professional design services for a specific construction project, the prime contractor will include the same design-specific provisions from Attachment D in the prime contractor's own contracts with subcontractors. Subcontractors must do the same for their sub-subcontractors.

J. ORGANIZATIONAL CONFLICTS OF INTEREST (OCOI)

Definition

<u>Organizational conflict of interest</u> means that because of other activities or relationships with other persons or entities, a contractor *as a business entity*:

- 1. Is unable or potentially unable to render impartial assistance or advice to VTrans; or
- 2. Is or might be otherwise impaired in its objectivity in performing the contract work (Example: A firm has a contract to inspect work by firms that are its business affiliates); or
- 3. Has an unfair competitive advantage. (Example: a firm participates in systems engineering and technical direction; preparing specifications or work statements; participates in development and design work; and/or gains access to the information of other companies in performing advisory and assistance services for the government drafting a scope of work for a project, then bids on the project itself.)

Disclosure

The contractor shall make an immediate and full disclosure, in writing, to the VTrans Project Manager of any potential or actual OCOI or the existence of any facts that may cause a reasonably prudent person to question the contractor's impartiality because of the appearance or existence of bias or an unfair competitive advantage. Such disclosure shall include a description of the actions

the contractor has taken or proposes to take in order to avoid, neutralize, or mitigate any resulting conflict of interest.

Contractors in Management Support Roles

OCOIs often arise when contractors or subcontractors are employed in management support roles, such as oversight and inspection of the work of other contractors, and the development of designs, requirements, or statements of work or procurement documents such as requests for proposal. Such contracts bear particularly close monitoring to avoid OCOIs. A contractor serving in a management support role may be precluded from providing additional services on projects, activities, or contracts under its oversight due to potential conflicts of interest.

OCOI Screening

Prior to submitting a proposal, each submitter/ proposer will conduct an internal review of its current affiliations and will require its team members to identify potential, real, or perceived OCOIs relative to the anticipated procurement. Potential submitters/proposers will be notified that existing and/or future contractual obligations relative to the proposed procurement may present an OCOI and these may require avoidance, neutralization, or mitigation.

Disqualification

Prior to the award of a contract, VTrans may determine that an OCOI exists which would warrant disqualifying the bidder for award of the contract. Vtrans will discuss the matter with the contractor to determine whether the OCOI can be mitigated to VTrans satisfaction by negotiating terms and conditions of the contract to that effect.

Subcontracts

- 1. The contractor shall require from its subcontractors full disclosure of any actual, apparent or potential organizational conflicts of interest, and report such to the VTrans Project Manager.
- 2. The contractor shall identify and avoid, neutralize, or mitigate any subcontractor organizational conflict prior to award of the contract to the satisfaction of the VTrans Project Manager. If the subcontractor's organizational conflict cannot be avoided, neutralized, or mitigated, the contractor must obtain the written approval from the appropriate VTrans Division Director prior to entering into the subcontract.
- 3. If the contractor becomes aware of a subcontractor's potential or actual OCOI after contract award, the contractor agrees that the Contractor may be required to eliminate the subcontractor from its team, at the contractor's own risk.

K. CONFLICT OF INTEREST REMEDIES

VTrans may terminate this contract, in whole or in part, or decline to make award to a contractor

17 | Page

if, in VTrans sole discretion, it is deemed necessary to avoid, neutralize or mitigate an actual or apparent personal or OCOI. No contract for the construction of a project shall be awarded to the firm that designed the project or its subsidiaries or affiliates, except with the approval of the Secretary of Transportation or authorized representative.

- 1. If a contractor fails to disclose facts pertaining to the existence of a potential or actual personal or OCOI or misrepresents relevant information to VTrans, Vtrans may terminate the contract for default, or pursue such other remedies as may be permitted by law or this contract.
- 2. The contractor will have the right to appeal a finding of an actual or potential OCOI to the appropriate Division Director, whose decision will be final, subject to further review only as provided for by state law, regulation or procedure.

L. CONTRACTOR PERSONNEL

- 1. The contractor shall employ only qualified personnel to supervise and perform the work. V Trans shall have the right to approve or disapprove personnel assigned to carry out or administer activities related to the contract.
- 2. Upon VTrans request the contractor shall supply resumes for staff proposed to work on assignment and/or under retainer contracts for VTrans review and acceptance or rejection. VTrans retains the right to interview the proposed staff.
- 3. If a contractor has submitted a list of key personnel to VTrans as part of a proposal, the contractor must notify and seek approval if any changes to the proposed personnel occur during the performance period of the contract.
- 4. VTrans reserves the right to require removal of any person employed by a contractor from work related to the contract as deemed necessary to protect the interests of the State. The decision of VTrans shall be final and not subject to challenge or appeal beyond the appropriate Division Director.

M. APPROVAL REQUREMENT FOR HIRING CERTAIN VTRANS EMPLOYEES

- 1. Contractors are required to obtain VTrans approval prior to making offers of employment to VTrans employees who are engaged in acquisition functions as defined in paragraph 9 above, or an individual who was engaged in acquisition functions for VTrans within one year of the end of employment with VTrans. Request for approval should be submitted to the appropriate Division Director.
- 2. Discussions with current VTrans employees engaged in acquisition functions regarding *potential* employment with a contractor creates a conflict of interest for the employee and is prohibited absent an approved mitigation plan or waiver.

3. Contractors are encouraged to maintain an open dialogue with VTrans regarding such matters, and work toward mutually acceptable avoidance and resolution of any issues.

N. ASSIGNMENTS, TRANSFERS AND SUBLETTING

- The contractor shall not assign, sublet, or transfer any interest in the work covered by the
 contract without prior written consent of the State and appropriate federal agencies, if
 applicable. Further, if any subcontractor participates in any work involving additional
 services, the estimated extent and cost of the contemplated work must receive prior written
 consent of the State.
- 2. The approval or consent to assign, sublet or assign any portion of the work shall in no way relieve the contractor of responsibility for the performance of that portion of the work so affected. Except as otherwise provided in these specifications, the form of the subcontractor's contract shall be as developed by the contractor.
- 3. Any authorized subcontracts shall contain all the same provisions specified for and attached to the original contract with the State.

O. PERFORMANCE AND COMPLETION OF WORK

- 1. The contractor shall perform the services specified in accordance with the terms of the contract and shall complete the contracted services by the completion dates specified in the contract.
- 2. With the exception of ongoing obligations (e.g., insurance, ownership of the work, and appearances) upon completion of all services covered under the contract and payment of the agreed upon fee, the contract with its mutual obligations shall be terminated.
- 3. If, at any time during or after performance of the contract, the contractor discovers any design errors, change(s) in standards, work product, or other issues that warrant change(s), the contractor shall notify the Project Manager immediately. This paragraph also applies to those projects that are under construction or have been constructed.

P. CONTINUING OBLIGATIONS

The contractor agrees that if, because of death(s) or other occurrences, it becomes impossible to effectively perform its services in compliance with the contract, neither the contractor nor its surviving principals shall be relieved of their obligations to complete the services under the contract. However, the State may terminate the contract if it considers a death, incapacity, or other removal of any principal(s) and/or key project personnel to be a loss of such magnitude that it would affect the contractor's ability to satisfactorily comply with the contract.

Q. APPEARANCES

1. Hearings and Conferences. The contractor shall provide professional services required by

19 | Page

the State that are necessary for furtherance of any work covered under the contract. Professional services shall include appropriate representation at design conferences, public gatherings and hearings, and appearances before any legislative body, commission, board, or court, to justify, explain and defend its services provided under the contract.

- 2. The contractor shall perform any liaison that the State deems necessary for the furtherance of the work and participate with the State, at any reasonable time, in conferences, concerning interpretation and evaluation of all services provided under the contract.
- 3. The contractor further agrees to participate in meetings with the State, applicable Federal Agencies, and any other interested or affected participants for the purpose of review or resolution of any conflicts pertaining to the contract. The contractor shall be equitably paid for such services, and for any reasonable expenses incurred in relation thereto, in accordance with the contract.
- 4. Appearance as Witness. When required by the Agency, the contractor, or an appropriate representative, shall prepare for and appear in, on behalf of the State, any litigation or other legal proceeding concerning any relevant project or related contract. The contractor shall be equitably paid for such services, and for any reasonable expenses incurred in relation thereto, in accordance with the contract.

R. CHANGES AND AMENDMENTS

- 1. VTrans may, upon written notice, require changes, additions or deletions to the work/contract. Whenever possible, any such adjustments shall be administered under the appropriate fee established in the contract based on the adjusted quantity of work.
- 2. The State may, upon written notice, and without invalidating the contract, require changes resulting from revision or abandonment of work already satisfactorily performed by the contractor or changes in the statement of work section of the contract.
- 3. If the value of such changes, additions or deletions is not otherwise reflected in payments to the contractor pursuant to the contract, or if such changes require additional time and/or expense to perform the work, the contract may be amended accordingly.
- 4. Changes to the scope, duration or value of the contract will require amendment of the contract, approved by the Agency's Secretary of Transportation, or an authorized official delegated this responsibility

A request for extension will be evaluated, and if VTrans determines that the justification is valid, an extension of time for completion of the work may be granted. A request for extension of time must be made before the contractor is in default.
- 2. The decision of VTrans relative to granting an extension of time shall be final and binding, and may result in damages owed the state by the contractor.
- 3. Neither party hereto shall be held responsible for delay in performing the work encompassed herein when such delay is due to unforeseeable causes such as, but not limited to, acts of God or a public enemy, fire, strikes, floods, or legal acts of public authorities.

- 2. A contractor may be liable for VTrans' costs resulting from errors or deficiencies in designs furnished under its contract. Therefore, when a modification to a contract is required because of an error or deficiency in the services provided under the contract, VTrans shall consider the extent to which the contractor may be reasonably liable, and enforce the liability and issue a demand for payment of the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the state's interest.
- 3. The VTrans Contract Manager shall include in the contract file a written statement of the reasons for the decision to recover or not to recover the costs from the firm, and the contractor shall be and remain liable to the state in accordance with applicable law for all damages to the Government caused by the contractor's erroneous performance of any of the services furnished under this contract.

V. RETAINAGE AND LIQUIDATED DAMAGES

- 1. Pursuant to the provisions of Agency of Administration Bulletin 3.5 Contracting Procedures, VTrans has considered whether services contracts should contain provisions that provide for liquidated damages and/or retainage. As a general principle, based on experience and policy, VTrans has generally chosen not to include liquidated damages and retainage in its services contracts.
- 2. Should VTrans believe that liquidated damages and/or retainage provision is/are advisable in a particular contract, the VTrans will include such a provision(s) in the contract.

W. NO ADVANTAGE FROM ERRORS OR OMISSIONS IN CONTRACT DOCUMENTS.

forth in 49 CFR 26.45, and based on the availability of ready, willing and able DBEs who submitted bids and quotes for transportation related projects, compared as a percentage of all available contractors who submitted bids and quotes for transportation related projects during the same time period. The DBE goal may be adjusted to take into account other factors impacting DBE utilization, in an effort to narrowly tailor the overall DBE goal. The detailed goal setting methodology and current overall DBE goal may be viewed on the VTrans website at: http://vtranscivilrights.vermont.gov/doing-business/dbe-center/program-goals.

VTrans currently utilizes a race/gender neutral policy to fulfill its overall DBE goals, and relies on the voluntary participation of contractors to utilize certified DBEs on every project sufficient to obtain the Agency's overall DBE goal. In order for this practice to continue, contractors must be proactive and solicit bids and quotes from certified DBEs for use when submitting their own bids, and employ certified DBEs when participating on transportation related projects. Otherwise, VTrans may have to implement specified contract goals on projects to ensure the overall DBE goals are met. VTrans may include specific DBE contract goals in certain cases to ensure DBE participation, if failure to obtain the project DBE goal would negatively impact the Agency's overall DBE goal because of the size of the contract.

Disadvantaged Business Enterprise (DBE) Definition. A DBE is defined as a business that is owned and controlled by one or more socially and economically disadvantaged person(s). For the purposes of this definition:

- a. "Socially and economically disadvantaged person" means an individual who is a citizen or lawful permanent resident of the United States and who is a Woman, Black, Hispanic, Portuguese, Native American, Asian American, or a member of another group, or an individual found to be disadvantaged by the Small Business Administration pursuant to Section 3 of the Small Business Act.
- b. "Owned and controlled" means a business which is:
 - i. A sole proprietorship legitimately owned and controlled by an individual who is a disadvantaged person.
 - ii. A partnership, joint venture or limited liability company in which at least 51% of the beneficial ownership interests legitimately is held by a disadvantaged person(s).
 - iii. A corporation or other entity in which at least 51% of the voting interest and 51% of the beneficial ownership interests legitimately are held by a disadvantaged person(s).

The disadvantaged group owner(s) or stockholder(s) must possess control over management, interest in capital, and interest in earnings commensurate with percentage of ownership. Disadvantaged participation in a joint venture must also be based on the sharing of real earnings, as above. If the disadvantaged group ownership interests are real, substantial and continuing and not created solely to meet the requirements of the program, a firm is considered a bona fide DBE.

- A DBE Prime Contractor: Count 100% of the value of the work performed by own forces, equipment and materials towards the DBE goals.
- An approved DBE subcontractor: Count 100% of the value of work performed by the DBE's own forces, equipment and materials, excluding the following:
 - The cost of materials/supplies purchased from a non-DBE Prime Contractor.
 - The value of work provided by non-DBE lower tier subcontractors, including non-DBE trucking to deliver asphalt to a DBE contractor.
- A DBE owner-operator of construction equipment: Count 100% of expenditures committed.
- A DBE manufacturer: Count 100% of expenditures committed. The manufacturer must be a firm that operates or maintains a factory or establishment that produces on the premises the materials or supplies obtained by the Contractor.
- A regular DBE dealer/supplier: Count 60% of expenditures committed. A regular dealer/supplier is defined as a firm that owns, operates, or maintains a store, warehouse or other establishment, in which the materials or supplies required for the performance of the contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business. A person may be a dealer in such bulk items as petroleum products, steel, cement, gravel, stone or asphalt without owning, operating or maintaining a place of business, if the person both owns and operates distribution equipment for the products, by the means of a long-term agreement, and not by a contract by contract basis.
- A DBE broker: Count for DBE credit only the fees or commissions charged for assistance in the procurement, and, fees and transportation charges for the delivery of materials or supplies required at the job site, but not the cost of materials procured. A broker is defined as any person(s) or firm who arranges or expedites transactions for materials or supplies, and does not take physical possession of the materials or supplies at their place of business for resale.
- A DBE renter of construction equipment to a contractor: Count 20% of expenditures committed, with or without operator.
- A bona fide DBE service provider: Count 100% of reasonable fees or commissions.

 and assistance in the procurement of essential personnel, facilities, equipment,
 materials or supplies required for the performance of the contract. Eligible services also
 include agencies providing bonding and insurance specifically required for the
 performance of the contract.

D. NONDISCRIMINATION AND RELATED CONTRACT REQUIREMENTS

The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR 60, 29 CFR 1625-1627, Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60-1.4(b) and, for all construction contracts exceeding \$10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR 60, and 29 CFR 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), and Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR 230, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

- 1. Equal Employment Opportunity: Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630, 29 CFR 1625-1627, 41 CFR 60 and 49 CFR 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 USC 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:
 - a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.
 - b. The contractor will accept as its operating policy the following statement:

- systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.
- b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.
- c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.
- 5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:
 - a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.
 - b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.
 - c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.
 - d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.
- 6. Training and Promotion:

vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

- 8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.
- 9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.
 - a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.
 - b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurance Required by 49 CFR 26.13(b):

- a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.
- b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.
- 11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:

- i. the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;
