

### Quechee Gorge Bridge Public Meeting Postponed

---

The Vermont Agency of Transportation (Vtrans) has selected a contractor for the Quechee Gorge Bridge Project, NH 020-2(45). Work is expected to begin this summer.

**Because of the recent rain and flooding, the Project Team is postponing the public meeting that was planned for Thursday, July 13th.** The new date, time, and location for the postponed public meeting will be sent out and updated on the website once it is confirmed.

The purpose of this meeting is to provide information on the short- and long-term construction schedule and general traffic impacts. If you have questions or comments, please reach out to the community engagement consultant, Marcy Miller. Her contact information is below.

Kindly,  
The Quechee Gorge Bridge Project Team
