Request for Proposals (RFP): **Job Order Contracts #JC001**

Ladies and Gentlemen,

The Vermont Agency of Transportation (VTrans) releases this Request for Proposals (RFP) for Job Order Contracts (JOCs) to provide equipment, personnel (operators, laborers), and necessary materials for small transportation-related maintenance and repair requirements. All VTrans Bureaus may place orders against JOCs.

Each JOC awarded will specify:

- The equipment each contractor will make available;
- The hourly rates for the specified equipment and associated operators; and
- The geographical area (indicated by VTrans maintenance district) in which the bidder is willing to operate under a JOC.

This RFP will result in the award of multiple JOCs which will create a pool of contractors that VTrans may place Job Orders against, in the best interest of the State.

Once JOCs have been executed, VTrans will no longer utilize Category I Maintenance and Rental Agreements (CAT I MRAs).

Contractors awarded a JOC may choose to make their equipment and services available to other State agencies, Vermont State Colleges, and political subdivisions of the State such as towns and schools (hereinafter "governmental entities") under the same terms and conditions provided in the JOC with VTrans. Contracts with other governmental entities will be separate in all ways from the VTrans JOCs, with the contracting governmental entity being entirely responsible for all aspects of contract administration, including payment, with no recourse to VTrans.

Questions. All questions related to this RFP shall be forwarded to Michelle Anderson, **Chief of Contract Administration, in writing** by e-mail at michelle.anderson@vermont.gov. All such questions and requests shall be received **no later than March 1st, 2019**. VTrans will not be bound by any oral communications. All questions or requests for clarification received will be documented and answered after this date.

Communications. *Communication with VTrans personnel other than the listed contracts specialist regarding this procurement is prohibited and may result in the rejection of your proposal.* It is a condition of bidding under this RFP that by submitting a bid, bidder accepts and agrees unconditionally that if bidder in any way contacts, a VTrans evaluator involved in the selection process for this contract, either during or following the RFP process, regarding the selection process or outcome of the selection process, then that bidder will be completely barred from being awarded a contract by VTrans for 365 days from the date of that bidder contacted the VTrans evaluator. The only valid point of contact for questions about the selection process or outcome is the Contract Administration employee named as the Point of Contact in this RFP.

Reservation of Rights. All proposals become the property of VTrans upon submission. The cost of preparing, submitting and presenting a proposal is the sole expense of the proposing Contractor. Unselected proposals may be destroyed or returned to the bidder at VTrans' discretion. VTrans reserves the right to reject any and all proposals received as a result of this solicitation, to negotiate with any qualified source, to waive any formality and any technicalities or to cancel this RFP in part or in its entirety if it is in the best interests of VTrans. This solicitation of proposals in no way obligates VTrans to award a contract.

Exceptions to Terms and Conditions. The bidder must state in the business proposal any exceptions taken to the terms and conditions in this RFP. For each exception the bidder shall identify the term or condition, state the reason for the exception, and provide any other information concerning the exception. Such exceptions, deviations or conditional assumptions may, however, result in rejection of the proposal as unresponsive.

Multiple Award Anticipated. VTrans intends to award more than one (1) JOC.

Contract Term. VTrans will enter into JOCs, with an initial term of two (2) years with the option of extending for two (2) additional one (1) year periods.

Maximum Limiting Amount. Maximum limiting amounts will vary based upon the type of equipment and district(s) of work awarded, and anticipated VTrans need. The maximum limiting amount for JOCs does not guarantee that an awardee will receive any work under the JOC or the payment of any portion of the maximum limiting amount.

Job Orders. As a need arises, VTrans will place Job Orders for equipment, and any required materials and personnel with individual contractors whose JOCs include the required equipment and district.

- The requesting VTrans organization will utilize a standard **Job Order Form** (see Attachment K) for all tasks assigned under JOCs.
- Job Orders will be submitted and received electronically (using email) therefore all contractors must have the capability to electronically send and receive the Job Order Form as described in Attachment A.
- Job Orders will be assigned to the contractor that represents the best value to the State, considering such factors as, but are not limited to; price, quality, past performance, and availability.

Job Order Assignment Procedure.

- VTrans may decide, in its sole discretion, to place Job Orders with contractors based upon hourly rates or request lump sum pricing.
 - Hourly Rates Only: If a Job Order is based on hourly rates only, and does not include lump sum pricing, VTrans will review JOCs, identify contractors with the equipment type sought, and select the contractor that represents the best value to the State for that Job Order.
 - Lump Sum Pricing or Materials. If a Job Order requires lump sum pricing, VTrans will request at least three (3) quotes from JOC holders prior to placing the order with the contractor that represents the best value to the State.

Job Order Limitation. Individual Job Orders will not exceed \$50,000.00.

Emergencies. In emergency situations VTrans may deviate from the above described procedures to place Job Orders against JOCs.

On-Ramp Procedures. VTrans reserves the right to add contractors to the JOC pool during the original and optional JOC periods. The evaluation and selection of awardees for any on-ramp will be the same as the evaluation and award criteria used for the initial JOC awards. Any new awardees will compete going forward with any existing or remaining contractors for all Job Orders. The period of performance for new awardees will not exceed the term of the original JOC, including options exercised.

Off-Ramp Procedures. In addition to any other means or methods of termination provided for in this contract, VTrans reserves the right to terminate JOCs at any time when it determines that a Contractor has failed to deliver adequate performance or demonstrated inadequate availability. No JOC will be terminated via these off-ramp procedures prior to an opportunity for the contractor to respond to a proposed termination.

Changes to Prices or Equipment Lists. As approved by VTrans, Contractors may add or delete equipment from the equipment lists that are part of the JOC contract, as an Administrative Adjustment. Such changes will only be effective when submitted to Contract Administration on the Administrative Adjustment Form, and the contractor has been notified of acceptance and the effective date. Contract prices may be adjusted only as part of amendments exercising the first option year in accordance with an approved request for revised pricing.

Subcontracting. JOCs are to be utilized primarily for small maintenance and repair tasks, therefore subcontracting entire Job Orders will not be permitted, except in unusual circumstances as permitted by VTrans in the Job Order.

Confidentiality. All Proposals received will become part of the contract file and will become a matter of public record, and may be disclosed to the public in accordance with the Vermont Public Records Act, 1 V.S.A. § 315 et seq. If the proposal documents include material that is considered by the bidder to be proprietary and confidential under 1 V.S.A. § 315 et seq., the bidder shall submit a cover letter that clearly identifies each page or section of the proposal that it believes is proprietary and confidential. The bidder shall also provide in their cover letter a written explanation *for each marked section* explaining why such material should be considered exempt from public disclosure in the event of a public records request, pursuant to 1 V.S.A. § 317(c), including the prospective harm to the competitive position of the bidder if the identified material were to be released. Additionally, the bidder must include a redacted copy of its response for portions that are considered proprietary and confidential. Redactions must be limited so that the reviewer may understand the nature of the information being withheld. It is typically inappropriate to redact entire pages, or to redact the titles/captions of tables and figures. Under no circumstances can the entire response be marked confidential, and the State reserves the right to disqualify responses so marked.

Proposal Instructions – General

 - Failure to provide all required information, or indications that the bidder will not conform to all terms as set forth in the RFP and attachments may make the offer non-responsive and may result in the elimination of the bidder from further consideration for award.
 - The selection panel may be comprised of VTrans employees from varying Departments and Bureaus and in some cases external Stakeholders. The panel members may or may not be familiar with your company. With that in mind, it is important to provide detailed information regarding the evaluation criteria listed below

- Assigned ratings represent the consensus developed by the selection committee.

b. Subcontractors:

Subcontractors are required to have insurance coverage in types and amounts meeting or exceeding the prime contractor's insurance obligations to the State, including any additional types and amounts of insurance coverage for certain types and settings of work as specified at Sections 2.e and 3 below.

As to subcontractors, a prime contractor is obligated, for each of its subcontractors, to verify and maintain evidence of verification that each subcontractor carries all VTrans-required insurances. Subcontractors must do the same for their sub-subcontractors.

2. Workers Compensation Verification Compliance (*applies to both prime and subcontractors*):

This information, including confirmation that

¹ See: Act 54 of 2009, § 32; Act 142 of 2010, § 17; Act 50 of 2011, § 6, as available at: <https://legislature.vermont.gov/>

contractors, subcontractors, and independent contractors have the appropriate workers' compensation coverage for all workers at the job site, and similar information for the subcontractors regarding their subcontractors shall also be provided to the department of labor and to the [Department of Financial Regulation], upon request, and shall be available to the public.

- b. Contractors and subcontractors must preserve and retain their documentation regarding the above for the period applicable to retention of documents connected with the contract.
- c. VTrans has the right to audit contractors' and subcontractors' compliance with the above; however, contractors and subcontractors should be in good standing at all times with this monitoring obligation, regardless of whether or how often VTrans conducts such audits.
- d. VTrans reserves the right to require contractors and subcontractors to submit periodic attestations of compliance with these workers compensation verification requirements.
- e. Contract-specific risk/ insurance:
 - i. Where the subject matter of the contract gives rise to specific insurance obligations under the Federal Motor Carrier Safety Act ("FMCSA") <https://www.fmcsa.dot.gov> , which applies to both certain transport of passengers and certain materials of environmental concern, contractors and subcontractors must comply with the FMCSA insurance requirements, which may vary by the details of the services provided under the contract.
 - ii. Environmental/ pollution coverage may also be required when the State, in its sole discretion, determines it to be required under the scope and subject matter of a contract.
 - iii. VTrans reserves the right to require other additional types or amounts of insurance for specific contracts when, in VTrans' sole discretion, it is prudent to do so in relation to the details of a particular contract.

3. Additional Types and Amounts of Insurance for Certain Subjects and Settings of Contracts for Services:

One or more types and amounts of the insurance coverages specified below will apply when the subject or setting of work falls within the scope(s) specified and described below:

- ii. The required Professional Liability and E&O insurance coverage must be maintained continuously for five (5) years after the Final Acceptance of any construction that may be developed as a result of such design work, even if the construction is performed under a separate contract/project.
- iii. Separate from task or project-specific requirements to maintain coverage, if contractor for any reason ceases operations, the contractor shall be responsible to obtain and maintain professional liability coverage that extends for not less than five (5) years after such cessation of operations.

Valuable Papers and Records Insurance shall provide coverage on an "individual occurrence" basis with limits in the amount of at least one hundred thousand dollars - \$100,000.00.

5. Railroad Protective Liability:

Railroad coverage limits must meet or exceed:

- i. Not less than two million dollars (\$2,000,000) for all damages arising out of any one accident or occurrence, in connection with bodily injury or death and/or injury to or destruction of property; and
- ii. Subject to that limit per accident, a total (or aggregate) limit of six million dollars (\$6,000,000) for all injuries to persons or property during the policy period.

- b. As of the issuance of these General Terms and Conditions, the required IT insurance types include, at minimum: Technology Professional Liability insurance with third-party coverage, and, if contractor has access to, processes, handles, collects, transmits, stores or otherwise deals with State Data, Contractor shall maintain first party Breach Notification Coverage; the Breach coverage shall include the State of Vermont and its officers and employees as additional insureds.
- c. Information technology contracts will also generally require their own set of additional specific terms and conditions, derived from the then-applicable templates issued by the Agency of Digital Services and the Office of Purchasing and Contracting within the Department of Buildings and General Services.

B. INDEMNIFICATION

1. Basic Indemnification Requirements (any contract for services):

a. Prime Contractor:

Except as specifically provided below, a prime contractor must act in an independent capacity and defend and indemnify the State in accordance with the State's then-current Attachment C

b. Subcontractors:

Except as specifically provided below, the prime contractor must include requirements as to independence, defense, and indemnity, matching Attachment C and identical to those in the prime contractor's contract with State, in the prime contractor's contracts with subcontractors. Subcontractors must do the same for their sub-subcontractors.

2. For Design/ Engineering Professional Services for a Specific Construction Project:

a. Prime Contractor:

Where a contract is for design/engineering professional services for a specific construction project, or, when a contract contains a mixed scope of work that in part consists of tasks of such professional design services for a specific construction project or projects, then as to, and only as to, those specific professional design services, the provisions of Standard Attachment C on the subjects of “Defense and Indemnity” (numbered item 7 in the December 2017 version of Attachment C, and any equivalent provisions, however numbered, in any subsequently-issued Attachment C) are stricken in their entirety and replaced in full by the following:

The Party shall defend the State and its officers and employees against all claims or suits arising in whole or in part from any act or omission of the Party or of any agent of the Party in providing “non-professional services” under this Agreement. As used herein, “non-professional services” means services provided under this Agreement other than professional services relating to the design and/or engineering of all or part of the project. The State shall notify the Party in the event of any such claim or suit covered by this Subsection, and the Party shall immediately retain counsel and otherwise provide a complete defense against the entire claim or suit arising out of “non-professional services” provided under this Agreement.

Notwithstanding anything to the contrary set forth in Subsection C above, the Party shall not be obligated to defend the State and its officers and employees against claims or suits arising from the Party’s provision of engineering design services or architectural design services. However, the Party’s obligation to defend the State and its officers and employees against all claims or suits arising out of “non-professional services” provided under this Agreement as provided in Subsection C above and the Party’s other obligations under Attachment C shall remain in effect.

The Party agrees to indemnify and hold the State, its officers and employees, harmless from and against monetary damages to third parties, together with reasonable costs, expenses and attorney’s fees incurred and paid by the State in defending claims by third parties (collectively “Damages”) but only in the event and to the extent such Damages are incurred and paid by the State as the proximate cause of negligent acts, errors or omissions (“Professional Negligence”) by the Party, its employees, agents, consultants and subcontractors, in providing the professional services required under this Agreement.

As used herein, “Professional Negligence” or “negligent acts, errors or omissions” means a failure by the Party to exercise that degree of skill and care ordinarily possessed by a reasonably prudent design professional practicing in the same or similar locality providing such services under like or similar conditions and circumstances.

The Party shall indemnify the State and its officers and employees in the event that the State, its officers or employees become legally obligated to pay any damages or losses arising from any act or omission of the Party arising from the provision of “non-professional services” (as defined herein) under this Agreement.

The Party shall not be obligated to indemnify the State for any Damages incurred by the State attributable to the State’s own negligent acts, errors or omissions or the negligent acts, errors or omissions of its officers, agents or employees, or the acts, errors, omissions or breach of Agreement by persons or entities other than the Party, its employees, agents, consultants and subcontractors.

After a final judgment or settlement, the Party may request recoupment of specific defense costs and may file suit in Washington Superior Court requesting recoupment. The Party shall be entitled to recoup costs only upon a showing that such costs were entirely unrelated to the defense of any claim arising from an act or omission of the Party.

b. Subcontractors:

As to subcontractors working under a prime contractor and where the subcontractors are providing such professional design services for a specific construction project, the prime contractor will include the same design-specific provisions from Attachment D in the prime contractor’s own contracts with subcontractors. Subcontractors must do the same for their sub-subcontractors.

C. GENERAL COMPLIANCE WITH LAWS; RESPONSIBILITY FOR VIOLATION

1. The contractor shall observe and comply with all applicable federal, state, and municipal laws, bylaws, ordinances, and regulations in any manner affecting the conduct of the work and the action or operation of those engaged in the work, including all such orders or decrees as exist at present and those which may be enacted, adopted, or issued later by bodies or tribunals having any jurisdiction or authority over the work; and the contractor shall defend, indemnify and save harmless the State, any affected railroad(s), and any affected municipality(ies), and all their officers, agents, and employees against any claim or liability arising from or based on the violation of any such law, bylaws ordinances, regulations, order, or decree, whether by the contractor in person, its employee(s), or by the contractor’s subcontractor(s) or agent(s), or employee(s) or agents thereof.

There shall be no direct compensation allowed the contractor for this work, but the cost thereof shall be included in the general cost of the work.
4. Violations shall be reported to the VTrans Office of Civil Rights for review. Failure to resolve disputes in a timely manner will result in a complaint made to the VTrans Chief of Contract Administration. In the Agency's judgment, appropriate penalties may be invoked for failure to comply with this specification. Penalties may include debarment or suspension of the ability to submit proposals.
5. This section shall be included in the prime contractor's contract made with all of its subcontractors.

J. ORGANIZATIONAL CONFLICTS OF INTEREST (OCOI)

Definition

Organizational conflict of interest means that because of other activities or relationships with other persons or entities, a contractor *as a business entity*:

1. Is unable or potentially unable to render impartial assistance or advice to VTrans; or
2. Is or might be otherwise impaired in its objectivity in performing the contract work (Example: A firm has a contract to inspect work by firms that are its business affiliates);
or
3. Has an unfair competitive advantage. (Example: a firm participates in systems engineering and technical direction; preparing specifications or work statements; participates in development and design work; and/or gains access to the information of other companies in performing advisory and assistance services for the government drafting a scope of work for a project, then bids on the project itself.)

Disclosure

The contractor shall make an immediate and full disclosure, in writing, to the VTrans Project Manager of any potential or actual OCOI or the existence of any facts that may cause a reasonably prudent person to question the contractor's impartiality because of the appearance or existence of bias or an unfair competitive advantage. Such disclosure shall include a description of the actions

the contractor has taken or proposes to take in order to avoid, neutralize, or mitigate any resulting conflict of interest.

Contractors in Management Support Roles

OCOIs often arise when contractors or subcontractors are employed in management support roles, such as oversight and inspection of the work of other contractors, and the development of designs, requirements, or statements of work or procurement documents such as requests for proposal. Such contracts bear particularly close monitoring to avoid OCOIs. A contractor serving in a management support role may be precluded from providing additional services on projects, activities, or contracts under its oversight due to potential conflicts of interest.

OCOI Screening

Prior to submitting a proposal, each submitter/ proposer will conduct an internal review of its current affiliations and will require its team members to identify potential, real, or perceived OCOIs relative to the anticipated procurement. Potential submitters/proposers will be notified that existing and/or future contractual obligations relative to the proposed procurement may present an OCOI and these may require avoidance, neutralization, or mitigation.

Disqualification

Prior to the award of a contract, VTrans may determine that an OCOI exists which would warrant disqualifying the bidder for award of the contract. Vtrans will discuss the matter with the contractor to determine whether the OCOI can be mitigated to VTrans satisfaction by negotiating terms and conditions of the contract to that effect.

Subcontracts

1. The contractor shall require from its subcontractors full disclosure of any actual, apparent or potential organizational conflicts of interest, and report such to the VTrans Project Manager.
2. The contractor shall identify and avoid, neutralize, or mitigate any subcontractor organizational conflict prior to award of the contract to the satisfaction of the VTrans Project Manager. If the subcontractor's organizational conflict cannot be avoided, neutralized, or mitigated, the contractor must obtain the written approval from the appropriate VTrans Division Director prior to entering into the subcontract.
3. If the contractor becomes aware of a subcontractor's potential or actual OCOI after contract award, the contractor agrees that the Contractor may be required to eliminate the subcontractor from its team, at the contractor's own risk.

K. CONFLICT OF INTEREST REMEDIES

VTrans may terminate this contract, in whole or in part, or decline to make award to a contractor

if, in VTrans sole discretion, it is deemed necessary to avoid, neutralize or mitigate an actual or apparent personal or OCOI. No contract for the construction of a project shall be awarded to the firm that designed the project or its subsidiaries or affiliates, except with the approval of the Secretary of Transportation or authorized representative.

1. If a contractor fails to disclose facts pertaining to the existence of a potential or actual personal or OCOI or misrepresents relevant information to VTrans, VTrans may terminate the contract for default, or pursue such other remedies as may be permitted by law or this contract.
2. The contractor will have the right to appeal a finding of an actual or potential OCOI to the appropriate Division Director, whose decision will be final, subject to further review only as provided for by state law, regulation or procedure.

L. CONTRACTOR PERSONNEL

1. The contractor shall employ only qualified personnel to supervise and perform the work. VTrans shall have the right to approve or disapprove personnel assigned to carry out or administer activities related to the contract.
2. Upon VTrans request the contractor shall supply resumes for staff proposed to work on assignment and/or under retainer contracts for VTrans review and acceptance or rejection. VTrans retains the right to interview the proposed staff.
3. If a contractor has submitted a list of key personnel to VTrans as part of a proposal, the contractor must notify and seek approval if any changes to the proposed personnel occur during the performance period of the contract.
4. VTrans reserves the right to require removal of any person employed by a contractor from work related to the contract as deemed necessary to protect the interests of the State. The decision of VTrans shall be final and not subject to challenge or appeal beyond the appropriate Division Director.

M. APPROVAL REQUIREMENT FOR HIRING CERTAIN VTRANS EMPLOYEES

1. Contractors are required to obtain VTrans approval prior to making offers of employment to VTrans employees who are engaged in acquisition functions as defined in paragraph 9 above, or an individual who was engaged in acquisition functions for VTrans within one year of the end of employment with VTrans. Request for approval should be submitted to the appropriate Division Director.
2. Discussions with current VTrans employees engaged in acquisition functions regarding *potential* employment with a contractor creates a conflict of interest for the employee and is prohibited absent an approved mitigation plan or waiver.

3. Contractors are encouraged to maintain an open dialogue with VTrans regarding such matters, and work toward mutually acceptable avoidance and resolution of any issues.

N. ASSIGNMENTS, TRANSFERS AND SUBLETTING

1. The contractor shall not assign, sublet, or transfer any interest in the work covered by the contract without prior written consent of the State and appropriate federal agencies, if applicable. Further, if any subcontractor participates in any work involving additional services, the estimated extent and cost of the contemplated work must receive prior written consent of the State.
2. The approval or consent to assign, sublet or assign any portion of the work shall in no way relieve the contractor of responsibility for the performance of that portion of the work so affected. Except as otherwise provided in these specifications, the form of the subcontractor's contract shall be as developed by the contractor.
3. Any authorized subcontracts shall contain all the same provisions specified for and attached to the original contract with the State.

O. PERFORMANCE AND COMPLETION OF WORK

1. The contractor shall perform the services specified in accordance with the terms of the contract and shall complete the contracted services by the completion dates specified in the contract.
2. With the exception of ongoing obligations (*e.g.*, insurance, ownership of the work, and appearances) upon completion of all services covered under the contract and payment of the agreed upon fee, the contract with its mutual obligations shall be terminated.
3. If, at any time during or after performance of the contract, the contractor discovers any design errors, change(s) in standards, work product, or other issues that warrant change(s), the contractor shall notify the Project Manager immediately. This paragraph also applies to those projects that are under construction or have been constructed.

P. CONTINUING OBLIGATIONS

The contractor agrees that if, because of death(s) or other occurrences, it becomes impossible to effectively perform its services in compliance with the contract, neither the contractor nor its surviving principals shall be relieved of their obligations to complete the services under the contract. However, the State may terminate the contract if it considers a death, incapacity, or other removal of any principal(s) and/or key project personnel to be a loss of such magnitude that it would affect the contractor's ability to satisfactorily comply with the contract.

Q. APPEARANCES

1. Hearings and Conferences. The contractor shall provide professional services required by

the State that are necessary for furtherance of any work covered under the contract. Professional services shall include appropriate representation at design conferences, public gatherings and hearings, and appearances before any legislative body, commission, board, or court, to justify, explain and defend its services provided under the contract.

2. The contractor shall perform any liaison that the State deems necessary for the furtherance of the work and participate with the State, at any reasonable time, in conferences, concerning interpretation and evaluation of all services provided under the contract.
3. The contractor further agrees to participate in meetings with the State, applicable Federal Agencies, and any other interested or affected participants for the purpose of review or resolution of any conflicts pertaining to the contract. The contractor shall be equitably paid for such services, and for any reasonable expenses incurred in relation thereto, in accordance with the contract.
4. Appearance as Witness. When required by the Agency, the contractor, or an appropriate representative, shall prepare for and appear in, on behalf of the State, any litigation or other legal proceeding concerning any relevant project or related contract. The contractor shall be equitably paid for such services, and for any reasonable expenses incurred in relation thereto, in accordance with the contract.

R. CHANGES AND AMENDMENTS

1. VTrans may, upon written notice, require changes, additions or deletions to the work/contract. Whenever possible, any such adjustments shall be administered under the appropriate fee established in the contract based on the adjusted quantity of work.
2. The State may, upon written notice, and without invalidating the contract, require changes resulting from revision or abandonment of work already satisfactorily performed by the contractor or changes in the statement of work section of the contract.
3. If the value of such changes, additions or deletions is not otherwise reflected in payments to the contractor pursuant to the contract, or if such changes require additional time and/or expense to perform the work, the contract may be amended accordingly.
4. Changes to the scope, duration or value of the contract will require amendment of the contract, approved by the Agency's Secretary of Transportation, or an authorized official delegated this responsibility
5. The contractor agrees to maintain complete and accurate records, in a form satisfactory to VTrans, for any extra work or additional services in accordance and the contractor shall perform such work or services only after an amendment has been fully executed or a written notice to proceed is issued by VTrans.

S. EXTENSION OF TIME

1. The contractor may, with justification, request in writing an extension of the allotted time for completion of the work. A request for extension will be evaluated, and if VTrans determines that the justification is valid, an extension of time for completion of the work may be granted. A request for extension of time must be made before the contractor is in default.
2. The decision of VTrans relative to granting an extension of time shall be final and binding, and may result in damages owed the state by the contractor.
3. Neither party hereto shall be held responsible for delay in performing the work encompassed herein when such delay is due to unforeseeable causes such as, but not limited to, acts of God or a public enemy, fire, strikes, floods, or legal acts of public authorities.

T. CONTRACTOR ERRORS AND OMISSIONS

1. The contractor shall provide professional services expeditiously and consistent with standard professional skill and care, the orderly progress of the work, and all standards and provisions of the contract. Errors and omissions in the work product of the contractor must be corrected by the contractor at no cost to the state.
2. A contractor may be liable for VTrans' costs resulting from errors or deficiencies in designs furnished under its contract. Therefore, when a modification to a contract is required because of an error or deficiency in the services provided under the contract, VTrans shall consider the extent to which the contractor may be reasonably liable, and enforce the liability and issue a demand for payment of the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the state's interest.
3. The VTrans Contract Manager shall include in the contract file a written statement of the reasons for the decision to recover or not to recover the costs from the firm, and the contractor shall be and remain liable to the state in accordance with applicable law for all damages to the Government caused by the contractor's erroneous performance of any of the services furnished under this contract.
4. Neither VTrans' review, approval or acceptance of, nor payment for, the services required under this contract shall be construed to operate as a waiver of any rights under this contract or of any cause of action arising out of the performance of this contract
5. The rights and remedies of the State provided for under this contract are in addition to any other rights and remedies provided by law.
6. If the Contractor is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.

U. DISPUTE RESOLUTION

The parties shall attempt to resolve any disputes that may arise under the contract by informal

negotiation, with the approval of the appropriate Division Director. If the dispute is not resolved, the Director shall issue a decision which the contractor may appeal in writing to the Transportation Board, through the Director, within 30 calendar days of the Director's decision, but not thereafter. The notice of appeal shall completely outline the nature and extent of the issue(s) appealed and shall include copies of any and all supporting documentation. The decision of the Transportation Board may be appealed to Vermont Superior Court by either party as provided in 19 V.S.A. § 5c.

V. RETAINAGE AND LIQUIDATED DAMAGES

1. Pursuant to the provisions of Agency of Administration Bulletin 3.5 – Contracting Procedures, VTrans has considered whether services contracts should contain provisions that provide for liquidated damages and/or retainage.
