**Construction Update**  
**Middlebury Bridge & Rail Project**

---

*Newly planted trees lining the street in downtown Middlebury.*

**DATE:** June 11, 2021

**TRAFFIC IMPACT**

Construction vehicles will be entering and exiting Printer's Alley from Main Street, the Marble Works from Seymour Street, and the Battell Block from Merchants Row. Pedestrians, bicyclists, and drivers should proceed with caution. This applies to the Fifield Farm marshaling yard on Route 30 south of town as well.

**CONSTRUCTION ACTIVITIES**

On the south end of the project, Kubricky will start tying rebar and form the new cap wall along the rail corridor.

Next week, Kubricky will start laying sidewalk grades in Lazarus Park. Waters will construct a footing for the stairs and continue to form and pour the sidewalk. The sidewalk needs to be in place before Landshapes can assemble the labyrinth!

ECl has completed the north cap wall on the Marble Works side of the rail corridor. They anticipate completing work on the east side cap wall in late June. Kubricky will begin tying rebar and forming the concrete Amtrak rail platform.

**OTHER UPDATES**

The Town of Middlebury will be replacing the sidewalk and curbing on Main Street Merchants Row and Bakery Lane/Mill Street next week. Alternating one-lane traffic will be in effect.

**LOCATION:** Triangle Park, Printer's Alley, and Lazarus Park

**PROJECTED COMPLETION:** August 2021
