

Construction Update Middlebury Bridge & Rail Project

The above photo shows Waters constructing the stairs that will lead down past the labyrinth and into the Marble Works.

DATE: June 18, 2021

TRAFFIC IMPACT

Construction vehicles will be entering and exiting Printer's Alley from Main Street, the Marble Works from Seymour Street and the Battell Block from Merchants Row. Pedestrians, bicyclists, and drivers should proceed with caution. This applies to the Fifield Farm marshaling yard on Route 30 south of town as well.

CONSTRUCTION ACTIVITIES

In Triangle Park, the sidewalk along Main Street near St. Stephens is nearing completion. Once the sidewalk is complete, a final cleanup will happen and the park will be open! The fountain will be installed later this summer.

Next week, Kubricky will continue laying sidewalk grades in Lazarus Park. The sidewalk needs to be in place before Landshapes can assemble the labyrinth!

ECl will continue pouring cap walls on the east side of the rail corridor. The cap walls on the north end of the project are anticipated to be complete next week. Kubricky will start constructing the Amtrak rail platform.

OTHER UPDATES

The Town of Middlebury is continuing the replacement of the sidewalk and curb on Main Street Merchants Row and Bakery Lane/Mill Street next week. Alternating one-lane traffic will be in effect for the remainder of the month.

LOCATION: Triangle Park, Printer's Alley, and Lazarus Park

PROJECTED COMPLETION: August 2021
