

Construction Update

Middlebury Bridge & Rail Project

DATE: April 16, 2021

TRAFFIC IMPACT: There are no anticipated traffic impacts next week, but be on the lookout for construction vehicles entering and exiting Triangle Park and Printer's Alley via Merchants Row, Main Street, and the Marble Works.

CONSTRUCTION ACTIVITIES: Last week, crews continued forming and pouring sidewalks in Triangle Park. The "hardscape" section of the park is now visible. Landshapers will begin placing granite pavers in the recessed concrete areas later next week. Waters will finish pouring the sidewalk on the Town Green side of Main Street and install granite curbing north of the Post Office.

In Printer's Alley, the granite curbing is now in place for the sidewalk and the roadway. These will form a new gateway connecting the Marble Works and Main Street. Printer's Alley will reopen this summer.

Next week, Kubricky will continue excavating the retaining wall to prepare the paver labyrinth. ECI will start forming the concrete surfaces on the top of the U-walls north of Main Street.

Spring is in the air in Downtown Middlebury! The above photo shows new concrete sidewalks in Triangle Park.

LOCATION: Triangle Park, Lazarus Park, and Printer's Alley

PROJECTED COMPLETION: August 2021
