ADDENDUM # 2

Request for Qualifications (RFQ): **Research for Years 2025 – 2029**

Addendum #1 for the above-mentioned service has been modified to provide the additional clarification below:

Q2. Ours is a new start-up based in Delaware that started recently this summer. I have previous work experience working with Minnesota DOT and MaineDOT on several research projects. I can showcase my expertise, however, we are still in the process of hiring our team. So, can I represent myself to fill the QRA instead of the team and their resumes?

A2. Any organization can respond to the RFQ. A potential option is that the RFQ may be reopened during the four-year period for additional organizations to join.

Sincerely,

Mike Kennedy, Contracts Specialist IV
