

2014 (Route Log) AADTs Major Collectors

VERMONT AGENCY OF TRANSPORTATION
HIGHWAY DIVISION
TRAFFIC RESEARCH UNIT

June 2015

METHODOLOGY

The following hierarchy of analysis was used to develop Annual Average Daily Traffic (AADT) volumes for each of the road segments as depicted on the Vermont Agency of Transportation's "Route Logs":

1. An actual count, if one was available for the particular road segment.
2. An estimated volume based on an actual count taken in a neighboring section used in conjunction with the appropriate turning movement traffic volumes.
3. An estimated volume based on applying the growth rate from a nearby count station to the 2011 AADT.
4. If no counts were taken in the vicinity, the statewide average growth rate for the appropriate class of road was applied to the 2011 AADT.

NOTES

In compliance with the Traffic Monitoring Guide, the following rounding procedures are used in this report for actual and estimated 2014 AADTs:

If <1000 then round to the nearest 10.

If >1000 then round to the nearest 100.

The AADT volumes listed in this report are calculated to represent a section of a particular roadway. The volumes may differ at either end of the section as a result of a particular type of land use activity or traffic distribution pattern.

The AADT volumes posted with an E (estimated value) are not intended for design purposes.

DEFINITIONS

MC: -Major Collector Number

NAME -Local Name of Road

FC -this publication, by definition, is all Functional Class 07, Major Collectors

TOWN -Town/City Name

REFERENCE -Intersecting roadway reference point

MM -Mile Marker

NAME -Description of section begin/end point

CL -City Line

SL -State Line

TL -Town Line

NUMBER -Route Designation of Intersecting Road(s)

ATR STA Automatic Traffic Recorder (ATR) station number(s) in traffic section.

TYPE: -Type of ATR Count

ATR -Automatic Traffic Recorder Coverage Counts (ATR)

CTC -Continuous Traffic Count (CTC)

ROUTE LOG AADT-Historical Annual Average Daily Traffic Data

A Actual tube count conducted.

E Estimated ADT based on actual traffic data in adjacent traffic sections.
