

# 2017 (Route Log) AADTs Major Collectors

VERMONT AGENCY OF TRANSPORTATION  
HIGHWAY DIVISION  
TRAFFIC RESEARCH UNIT

April 2018

## METHODOLOGY

The following hierarchy of analysis was used to develop Annual Average Daily Traffic (AADT) volumes for each of the road segments as depicted on the Vermont Agency of Transportation's "Route Logs":

1. An actual count, if one was available for the particular road segment.
2. An estimated volume based on an actual count taken in a neighboring section used in conjunction with the appropriate turning movement traffic volumes.
3. An estimated volume based on applying the growth rate from a nearby count station to the 2014 AADT.
4. If no counts were taken in the vicinity, the statewide average growth rate for the appropriate class of road was applied to the 2014 AADT.

## NOTES

In compliance with the Traffic Monitoring Guide, the following rounding procedures are used in this report for actual and estimated 2017 AADTs:

If <1000 then round to the nearest 10.

If >1000 then round to the nearest 100.

The AADT volumes listed in this report are calculated to represent a section of a particular roadway. The volumes may differ at either end of the section as a result of a particular type of land use activity or traffic distribution pattern.

The AADT volumes posted with an E (estimated value) are not intended for design purposes.

## DEFINITIONS

NO.:	-Major Collector Number
NAME	-Local Name of Road
FC	-This publication includes rural town highway Major Collectors and Minor Arterials.
TOWN	-Town/City Name
REFERENCE	-Intersecting roadway reference point
MM	-Mile Marker
NAME	-Description of section begin/end point
CL	-City Line
SL	-State Line
TL	-Town Line
NUMBER	-Route Designation of Intersecting Road(s)
ATR STA	Automatic Traffic Recorder (ATR) station number(s) in traffic section.
TYPE:	-Type of ATR Count
ATR	-Automatic Traffic Recorder Coverage Counts (ATR)
CTC	-Continuous Traffic Count (CTC)
ROUTE LOG AADT	-Historical Annual Average Daily Traffic Data
A	Actual tube count conducted.
E	Estimated ADT based on actual traffic data in adjacent traffic sections.
