Agency of Transportation Now Accepting Grant Applications for 2023 Transportation Alternatives Program

Barre, Vt. – The Vermont Agency of Transportation (AOT) is now accepting grant applications for the SFY 2023 Transportation Alternatives Program (TAP). This year, TAP funding is available for all eligible activities as described in the Vermont Transportation Alternatives Fall 2022 Application Guide at the link below. Fifty percent of the grant program funds are reserved for environmental mitigation projects relating to stormwater and highways, including eligible salt and sand shed projects.

More information and the application are available at <http://vtrans.vermont.gov/highway/local-projects/transport-alt>. Applications are due via e-mail by December 14, 2022.

A virtual informational workshop will be held to explain the requirements and address any questions from the participants. AOT strongly recommends that applicants attend the workshop to better understand the requirements associated with federal-aid projects. The workshop will be held on November 16, 2022, from 10:00-11:30 a.m. No password or pre-registration is required. Applicants may participate from any computer connected to the internet. Join the virtual workshop by clicking on this meeting link: <https://vtrans.vermont.gov/highway/local-projects/transport-alt>

If you have questions or would like more information, please contact Scott Robertson in the Municipal Assistance Bureau at 802-793-2395 or Scott.Robertson@vermont.gov.
