**Public Transit Policy Plan draft released for public review**

Barre, Vt. – The Vermont Agency of Transportation (AOT) has released a draft of the Public Transit Policy Plan (PTPP) for public review.

The PTPP quantifies Vermont’s transit needs and recommends programmatic and policy initiatives to strengthen the statewide transit system, outlining a ten-year vision for transit service in Vermont.

The PTPP will serve as a guide for AOT and its partners to make decisions on implementing and funding transit projects that facilitate mobility for Vermonters, minimize duplication of services, leverage limited funds, maximize ridership, and improve coordination of services. The draft PTPP is available for review on [the AOT website](#).

Written public comments on the draft may also be submitted by U.S. mail, courier, or hand delivery to Vermont Public Transit Policy Plan Public Comment, Vermont Agency of Transportation, Policy, Planning, & Intermodal Development, 4<sup>th</sup> Floor, 219 N. Main Street, Barre, VT 05641.

The public comment period closes January 3, 2020.
