

## **Construction Update Middlebury Bridge & Rail Project Week of November 12-16**

Next week the contractor for the Middlebury Bridge & Rail Project will concentrate on off-roadway work. This includes excavating a third and last tunnel for the stormwater drainage system, continuing utilities work and starting the construction of a headwall adjacent to the Middlebury waterfalls and Otter Creek on the lower level of Marble Works Green.

There will be no major effects on Main Street (Route 30) and Merchant Row traffic. Travelers may experience intermittent delays as construction vehicles enter and exit the work zone at Triangle Park.

For information on the project view the project website,  
<http://vtrans.vermont.gov/projects/middlebury>.

Best regards,

Jill
