

Next week will be a short work week for the Middlebury Bridge & Rail Project's contractor. They'll take a long holiday weekend, resuming work on Wednesday, January 2.

Next week the contractor will be placing the annular grout on all three drainage pipes. The contractor will be backfilling the launch shaft and one of the receiving pits. Truck traffic will be limited to Marble Works.

Any traffic delay on Main Street (Route 30) and Merchants Row will be limited and intermittent.

For information on the project view the project website,
<http://vtrans.vermont.gov/projects/middlebury>.

Best regards & Happy Holidays,

Jill
