

**Construction Update**  
**Middlebury Bridge & Rail Project**

*The above photo shows new signage at the Middlebury Amtrak Rail Station.*

**DATE:** September 3, 2021

**TRAFFIC IMPACT**

Motorists are advised to use caution when entering and exiting the Marble Works on Middle Seymour Street due to continued construction on the Amtrak rail platform.

**CONSTRUCTION ACTIVITIES**

The Middlebury Bridge & Rail Project is about to reach a significant milestone. Next week, after four years of construction in downtown Middlebury, the project is anticipated to reach substantial completion, which means that all contract work except for "punch list" items will be complete. Construction activities will resume on Tuesday next week due to the Labor Day holiday.

ACTR's bus stop in front of the Post Office in the southbound lane will be relocated to the northbound lane of Main Street along Triangle Park. Signage marking Middlebury, VT as an official Amtrak stop has gone up. Phase 2 of the rail platform project will include creating parking and landscaping the area. This work is expected to get underway in October.

Next week, the Printer's Alley roadway, which connects Main Street and the Marble Works, will reopen. The Triangle Park fountain will become fully operational and Kubricky will continue removing the access road south of the Cross Street Bridge to the bottom of Water Street.

Enjoy the holiday weekend!

**LOCATION:** Triangle Park, Printer's Alley, and Lazarus Park

**PROJECTED COMPLETION:** August 2021
