
Construction Update
Middlebury Bridge & Rail Project

This aerial photograph by Middlebury photographer Caleb Kenna shows construction nearly completed in downtown Middlebury.

DATE: October 29, 2021

The Middlebury Bridge & Rail Project Team wants to hear your feedback! As the project has reached the "substantial completion" milestone, we would like to hear your thoughts about your overall satisfaction with the downtown construction project and the communications efforts. This is an opportunity for you to voice your opinions about construction and your experiences with the Project Team.

The Vermont Agency of Transportation (VTrans) will be using your feedback to inform future construction projects. Input from this survey will help determine what went well and what can be done differently moving forward. The brief survey is 15 questions and will be available for the next two weeks. The survey can be accessed by clicking on the button below. Results of the survey will be shared with the community in a November update.

Please note, this survey is specific to the Middlebury Bridge & Rail Project. It does not pertain to other construction work that has occurred in the area over the past few months.

We look forward to hearing from you!
