
Construction Update
Middlebury Bridge & Rail Project

The rail platform on the north end of the project is nearing completion.

DATE: August 27, 2021

TRAFFIC IMPACT

There are no traffic impacts anticipated next week.

CONSTRUCTION ACTIVITIES

Paving of sections of Seymour Street, Water Street, and the National Bank's Seymour Street drive-in branch may continue through tonight. Hutchins is expected to resume paving of downtown highways after Labor Day.

Next week, the CSE construction crew will continue assembling structural steel that will support the rail platform canopy. On the south end of the project, the temporary access road between Water Street and the Battell building has been removed.

LOCATION: Triangle Park, Printer's Alley, and Lazarus Park

PROJECTED COMPLETION: August 2021
