

Quechee Gorge Bridge Temporary Fence Installation Complete

With the temporary safety fence on the Quechee Gorge Bridge now installed, travelers will have no delay crossing the bridge. The contractor has just a few punch list items to finish but this will have no impact to traffic. **The installation was done in just 2 ½ weeks!!!**

Miller Construction of Windsor, VT is the prime contractor, assisted by subcontractors Lafayette Highway Specialties of Essex Junction and Green Mountain Traffic Control.

Route 4 opened to 2-lane traffic at 1 PM Wednesday afternoon.

Five viewing portals, about 5 inches in height by 24 inches width, are located in the center area of the bridge, on both sidewalks.

Contact Project Outreach Coordinator Jill Barrett with any questions or concerns about the project at 802-272-1248. See project website, <https://vtrans.vermont.gov/projects/quechee>
