The VTrans Training Center has put together an Employee Newsletter that we will be sending out quarterly to all Agency of Transportation (AOT) employees. In this quarterly newsletter, we will be sharing key topics, highlighting trainings and spotlighting employees throughout the Agency.

**WHAT IS THE VTRANS TRAINING CENTER?**

The AOT is committed to the development, growth, and retention of our workforce of today and the evolving workforce we will need in the future; in order to support the professional and personal growth of employees, the VTrans Training Center (VTTC) was created. We exist to promote organizational excellence by attracting, helping to develop, and retaining a talented, diverse, and engaged workforce.

AOT’s organizational mission, “Provide for the safe and efficient movement of people and goods”, is what drives the VTTC to offer relevant, transferable, and high-quality learning opportunities. Our goal is to assist each employee to be more proficient, safe, and technically skilled in their respective job duties as well as to prepare them for future growth opportunities in a strengths-based culture.

Next issue, we will be doing an 'Employee Spotlight'

Have an idea on who we should spotlight? Let us know!

**Telework Policy and FAQs**

Teleworking allows employees the opportunity to perform their duties at alternate worksites during an agreed upon portion of their workweek.

We have put together guidelines and FAQs for employees and supervisors to use when determining if teleworking is right for the employee and their team.

**TELEWORK & ALTERNATE WORK SCHEDULE GUIDE**

The purpose of the combined guidelines are to define the telework arrangement and the conditions under which it will operate. The guidelines provide a framework to help employees and supervisors come to an agreed understanding of what teleworking will do to benefit and potentially hinder office productivity.
TELEWORKING FREQUENTLY ASKED QUESTIONS

Teleworking -- sometimes referred to as telecommuting and working from home -- is an arrangement in which the employee works outside the office, but still fulfills all work responsibilities and interacts with office team members throughout the day. Teleworking could be from home or an alternate work location, such as a AOT District Office which is closer to your home.

These Frequently Asked Questions were created to assist with making the decision to have an employee have an arrangement in place, as well as to help the supervisor through the negatives they may feel are around teleworking.

BUILDING A CULTURE OF CONTINUOUS IMPROVEMENT

Have you ever asked yourself these questions?
- Why is this process so complicated?
- Why does it take so long to get (insert any form here) approved?
- This should be an “easy” process, why are there so many people involved?
- What are people's roles and responsibilities for this project?

There is great news! We are all in this together and there are opportunities for all staff to improve processes. Check out the Continuous Improvement 30-minute course on the LMS, or for more information contact Adrienne Gil, AOT Continuous Improvement Manager.

We would like to encourage all AOT staff to watch the 30-minute on-line Continuous Improvement 101 video (login to the LMS, and use the search bar). The purpose of this is to ensure we
are all using the same language and utilizing continuous improvement principals every day in our work. This is not a “program,” it’s the way we should be working.

MENTORING PROGRAM -- GET INVOLVED!

The mentoring relationship is an agreement between two people, sharing experiences and expertise to help with personal and professional growth. It is a joint venture – it requires both individuals to share responsibility for learning and sustaining the relationship. Click here to read the Mentoring Handbook.
